## fima wellness

### Come e per chi.

How we do it and  
who we do it for.  
**что это такое и на кого  
рассчитано**

FIMA Carlo Frattini ha riscritto le regole del wellness: benessere oggi non significa solo relax ma momento speciale, da vivere in uno spazio personale. Parafrasando Magritte, maestro del periodo surrealista, potremmo affermare che "questa non è una doccia". Concetto rivisto e corretto da FIMA Carlo Frattini, che afferma: questa non è più solo una doccia. Le nuove docce FIMA vanno al di là della semplice erogazione del getto d'acqua; diventano spazio wellness da comporre liberamente scegliendo soffioni in diverse tipologie, cromoterapia, getti idromassaggio e diverse soluzioni compositive, tutte personalizzabili. Come unico e personale può essere il tempo dedicato al proprio benessere, grazie al sistema Docce di FIMA Carlo Frattini.

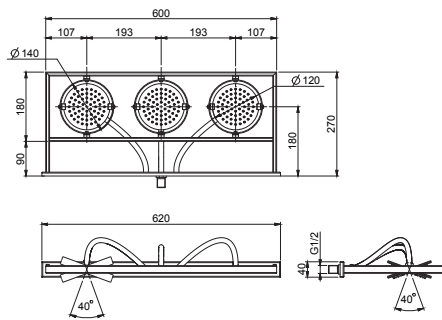

FIMA Carlo Frattini has rewritten the rules of wellness: wellness today is not just about relaxation, it's also about those special moments in your own personal space. To paraphrase Magritte, the legendary surrealist artist, you could say that "this is not a shower". We at FIMA Carlo Frattini, however, see it slightly differently: this is no longer just a shower. The new FIMA showers go beyond mere water distribution. They are wellness areas that you can arrange in whichever way you want. Choose from a huge number of different shower heads, chromotherapy functions, hydromassage jets and a range of customisable compositional solutions. See just how unique and personal your wellness time can be with a FIMA Carlo Frattini shower system.

Компания FIMA Carlo Frattini переписала правила wellness: благополучие сегодня - это не только релаксация, а какие-то особенные ощущения, наполняющие личное пространство. Перефразируя Магритта, мастера эпохи сюрреализма, мы можем утверждать, что "это не душ". В интерпретации компании FIMA Carlo Frattini концепция гласит: это не просто душ. Новое оборудование для душа FIMA выходит далеко за пределы простой подачи струи воды и превращается в настоящее пространство wellness, которое можно создавать с помощью разных типов душевых леек, хромотерапии, гидромассажных форсунок и прочих многочисленных сложных решений в зависимости от индивидуальных предпочтений. Время, посвященное собственному здоровью и хорошему самочувствию, может быть таким неповторимым и индивидуальным, благодаря душевым системам FIMA Carlo Frattini.
